## M.A. DESIGN & TECHNOLOGY: PASS

BUCKINGHAMSHIRE COLLEGE OF  
HIGHER EDUCATION

'The design of furniture for computers in the home'. My thesis covered the implementation of furniture for home computers in a domestic environment. (This was before the days of the personal computer.) The course also included details of; Management, Materials technology, manufacture, and philosophy.

## B.A. (hons) GRADE: 2.1

Birmingham Polytechnic

The first year was a broad design education with experience in other disciplines. The following 2 years consisted of furniture design projects for domestic furniture in which I developed the necessary materials skills, as well as liaising with local industry. My final project was based on the development of domestic lighting.
